18 January 2022

Dear parents/carers

This change came into effect in England on Monday 17 January and applies to all positive cases, regardless of vaccination status.

People who are self-isolating with COVID-19 have **the option to reduce their isolation period after 5 full days** if they test negative with an LFD test on both **day 5 and day 6 and they do not have a temperature**. For example, if they test negative on the morning of day 5 and the morning of day 6, they can return to their education or childcare setting immediately on day 6.

The first test must be taken no earlier than day 5 of the self-isolation period, and the second must be taken the following day. All test results should be [reported to NHS Test and Trace](#).

If the result of either test is positive, they should continue to self-isolate until they get negative results from two LFD tests on consecutive days or until they have completed 10 full days of self-isolation, whichever is earliest.

The new rules also apply to people who are already isolating – so if someone was already isolating before Monday 17 January, they can take LFD tests on day 5 and 6 and if they are both negative and they have no temperature they can end their isolation.

Anyone who is unable to take LFD tests or anyone who continues to have a temperature will need to complete the full 10-day period of self-isolation.

Further [information on self-isolation for those with COVID-19](#) is available.

Yours sincerely,

Linda McQuone
Executive Headteacher
