Summer term 2026

Dear Parents and Carers,

Blackminster Middle School has been working in partnership with Albion Computers to offer families the opportunity to support the school's eLearning scheme. The scheme is based around a portable laptop for each child to use in school, as well as for learning at home. We believe that all students accessing their own devices to support the use of ICT in and out of the classroom will further enhance their learning, allowing personalised and safe access to a wealth of creative content, resources and tools.

Further to resounding support voiced by our parents in a recent survey, we are delighted to announce the launch of our School Community eLearning scheme. This initiative is to enhance your child's learning. Writing, exercise books and textbooks will still be in use. This is not to replace the current practice but add on to the opportunities in school at present. In an ever-changing digital world, this will help prepare our pupils for their future as well as develop their educational experience.

The scheme is open now and will remain open until **5th July 2026**. Students, with a parent, will be asked to collect their computers on the **2nd September**, ready for the new school year. Parent payments in support of the scheme will start on the **4th August**.
